The screenshot shows the Pulsara interface for an incident titled "Active shooter at grocery store". At the top, it indicates "3 Patients" with a color-coded status bar (0 Green, 1 Yellow, 2 Red, 0 Black) and a "Details" button. The left sidebar contains navigation options: HQ, Incidents, Users, Cases, and Hospital. The main area displays a patient card for a "TRAUMA" patient, "(Unknown Name)", 20y M, PTNFXC2503, assigned to "JW Pulsara EMS". The patient's status is "Red". The interface also includes a "CONDITION" section with counts for Green (0), Yellow (0), Red (1), and Black (0), and a "STATUS" section with counts for On Scene (0), En Route (1), and At Destination (0). A "Filter Labels..." input field and a "Sort By" dropdown (set to "Newest") are also visible.

The screenshot displays the Pulsara Hospital Incident View interface. The top header shows the incident title "Active shooter at grocery store" and "3 Patients" with a color-coded status bar (0 Green, 1 Yellow, 2 Red, 0 Black). The incident is currently "Active" and managed by "JW Pulsara Main". A search bar and utility icons (gear, notifications, help, user) are on the right. The left sidebar contains navigation options: HQ, Incidents (selected), Users, Cases, and Hospital. The main content area features a "Filter Labels..." search box and a "Sort By" dropdown set to "Newest". A table lists patient details, with the first entry highlighted: a "Red" patient with "TRAUMA" (Unknown Name), 20y M, PTNFXC2503, managed by JW Pulsara EMS. The patient's location is "JW Pulsara Main" and the ETA is "234 hr 53 min ago". A "+ Create Patient" button is highlighted in the top right corner. A yellow circle with "01" is on the left, and a yellow circle with "02" is on the right.

The screenshot displays the Pulsara HQ interface for JW Pulsara Main. The top navigation bar includes the Pulsara logo, user name, availability status (checked), and search bar. Below the navigation bar, there are filters for ASSIGNMENT, CASE TYPE, STATUS, MOA, OUTBOUND, CONDITION, and TEST STATUS, each with a 'CLEAR' button. A 'Filter Labels...' input field is also present. The main content area shows a list of patients with columns for status, case type, description, age, gender, provider, ETA, location, room, and MRN. The first patient is highlighted with a yellow box and a '01' callout. This patient has a 'Red' status, 'TRAUMA' case type, 'Gunshot wound to a...' description, '20y' age, 'M' gender, 'EMS FROM JW Pulsara EMS' provider, 'ETA 17 min' ETA, 'Inbound' location, and 'Room --' room.

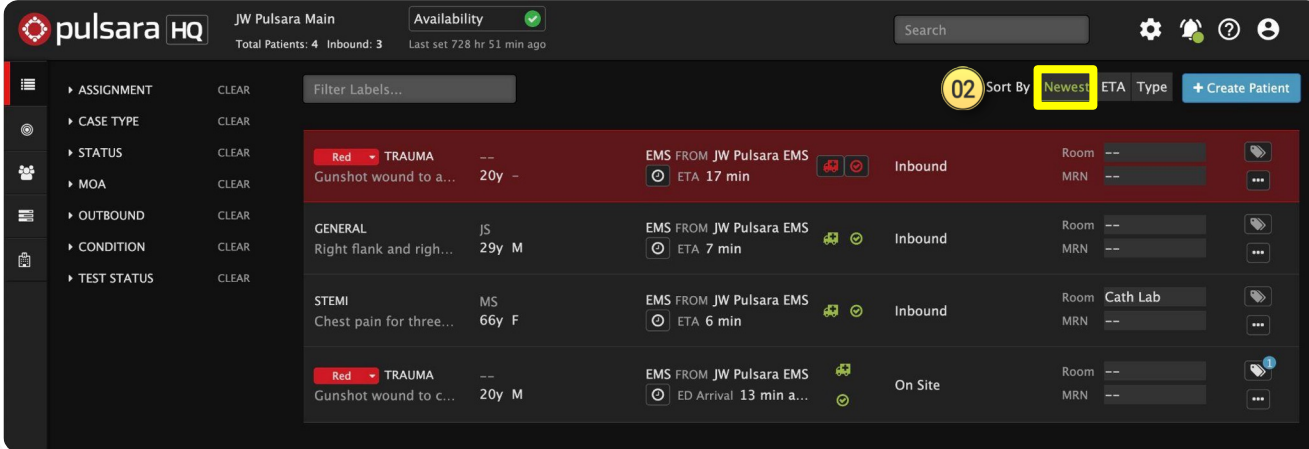

Status	Case Type	Description	Age	Gender	Provider	ETA	Location	Room	MRN

03 Triage Color (Incident Related Patient)

The screenshot displays the Pulsara HQ interface for incident notifications. The header shows 'pulsara HQ', 'JW Pulsara Main', and 'Availability' status. A search bar and navigation icons are also present. The main content area displays a list of incident notifications with columns for assignment, case type, status, MOA, outbound, condition, and test status. Three notifications are visible, each with a 'Red' triage color indicator highlighted by a yellow box and a '03' callout. The first notification is for a trauma patient with an ETA of 17 minutes. The second is for a general patient with an ETA of 7 minutes. The third is for a trauma patient with an ETA of 13 minutes. The interface also shows a 'Filter Labels...' dropdown and a 'Sort By' menu set to 'Newest'.

ASSIGNMENT	CLEAR	Filter Labels...	Sort By	Newest	ETA	Type	+ Create Patient

The screenshot displays the Pulsara HQ interface for JW Pulsara Main. The top navigation bar includes the Pulsara logo, user name 'JW Pulsara Main', availability status 'Availability' with a green checkmark, and a search bar. Below the navigation bar, a summary shows 'Total Patients: 4' and 'Inbound: 3' with a timestamp 'Last set 728 hr 51 min ago'. The main content area is a list of incident notifications. On the left, a sidebar contains filters for ASSIGNMENT, CASE TYPE, STATUS, MOA, OUTBOUND, CONDITION, and TEST STATUS. The notification list is sorted by 'Newest'. A patient with a 'Red' triage color and 'TRAUMA' case type is highlighted. The patient's chief complaint is 'Gunshot wound to abdomen' and the narrative is 'Gunshot wound to abdomen. Pressure 70, pulse 120.' and 'Hanging one unit whole blood'. Other patients in the list include a 29-year-old male with a right flank and right chest pain, a 66-year-old female with chest pain, and another 20-year-old male with a gunshot wound to the chest.

The screenshot displays the Pulsara interface for JW Pulsara Main. The top bar shows 'Availability' as 'On' with a green checkmark. Below the top bar, there are filters for ASSIGNMENT, CASE TYPE, STATUS, MOA, OUTBOUND, CONDITION, and TEST STATUS. The main area shows a list of patients with columns for triage color, case type, age, gender, EMS status, ETA, and location. A patient with a 'Red' triage color and 'TRAUMA' case type is highlighted. A detailed view of this patient is shown in a modal window, displaying the following information:

- Triage / Incident:** Incident: Active shooter at grocery store; Test Incident: No; Patient Condition: Red
- Patient Type:** Trauma
- Patient:** Date of Service: Jul 10, 2024 16:24; Name: (Unknown Name); MRN: -----; US | Statewide Wristband: PTNFXC2508; Hospital: IW Pulsara Main

The modal window also shows a 'Stop Case' button and a 'PSR' button. A yellow circle with the number '05' is overlaid on the bottom right of the modal window, indicating the step 'View Additional Details'.

The screenshot displays the Pulsara mobile application interface. At the top, the 'Incident' section shows 'Active shooter at grocery store' with a dropdown arrow. Below this, the 'Condition' is set to 'Red', with 'Green', 'Yellow', and 'Black' as other options. The 'Patient' section includes a 'DL Scan' button and an 'Edit' button. The patient details are as follows:

MRN	-
US Statewide Wristband	PTNFXC2530
Date of Service	Jul 17, 2024 10:19
Name	(Unknown Name)
Date of Birth	-
Arrival	Inbound EMS
Room	Trauma 2
Age	20 Years
Gender	Male

Below the patient information, the 'Emergency Department' section shows 'ED Arrival Time' with a 'Set' button. At the bottom, there is a large orange circular button labeled 'ACTIVATE' with a camera icon in the bottom right corner.

INCIDENTS | Add Patient to Incident - Mobile

01 Apply and Scan Wristband

- Scan wristband to add a patient
 - Adding patients by tapping **NEW** increases the risk of a duplicate
- Patient is automatically added to incident in Incident View

02 Set Method of Arrival

03 Set Triage Condition (Color)

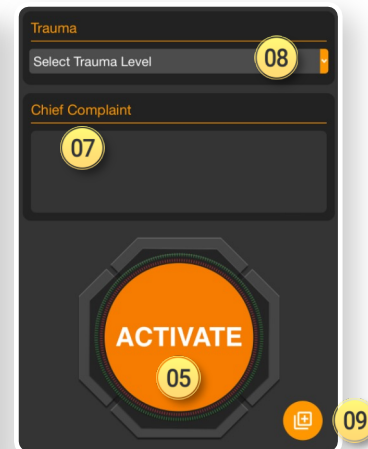

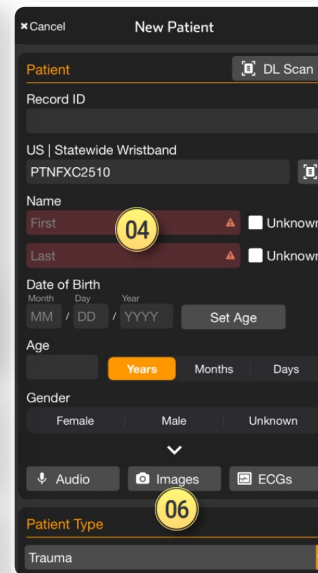

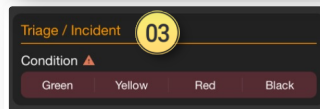

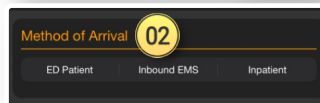

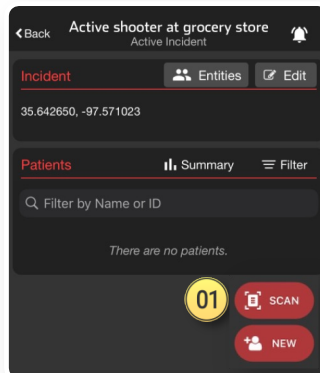

04 Add Patient Demographics

- Scan driver's license (DL), or enter manually
- Rapid: **Unknown** name, estimated **Age**, **Gender**

05 Activate Patient

Triage Section not visible?

- You are in Patient View (all patients)
- Tap **09 Add**, then **Triage / Incident**
 - **Select Incident** and **Condition**

The screenshot shows the 'New Patient' form in a mobile application. The 'Triage / Incident' section is highlighted with a yellow box. This section includes a dropdown menu for 'Incident' (currently showing 'Select an Incident') and a row of buttons for 'Condition' with options: Green, Yellow, Red, and Black. Below this, there are fields for 'Patient' (with a 'DL Scan' icon), 'MRN', 'US | Statewide Wristband' (with a QR code icon), 'Name' (with 'First' and 'Last' sub-fields, each with an 'Unknown' checkbox), and 'Date of Birth' (with 'Month', 'Day', and 'Year' sub-fields). An 'ADD' button is located at the bottom right of the form.

Optional
